

# DIDZIS ZVAIGZNE

Student / Web Developer

## Summary

Quitting without results for me is unheard-of. I am passionate about new technology and learning is a non-stop process for me. I do my best to always aim high and my future goal is to become a full stack developer. Although my previous work experience is not related to my current studies, I am a hard worker and I have gained experience in how to work with a team.
